

GATS 2000

REQUEST FROM THE EC AND ITS MEMBER STATES (HEREAFTER THE EC)

TO

JORDAN

GENERAL REMARKS

At the WTO Ministerial Conference in Doha in November 2001, Ministers agreed that initial requests for specific commitments should be submitted by 30 June 2002.

In line with this decision, and committed to the objectives and principles stated in the GATS, in particular Article IV and XIX GATS, as well as the negotiating guidelines agreed by the Council for Trade and Services on 29 March 2001, the EC encourages Jordan to participate actively in the negotiations.

The EC considers that the progressive liberalisation of services is of benefit for all members, including developing and least developed countries. In this context, the EC recognises the importance of liberalisation being underpinned by domestic regulatory frameworks designed to ensure the achievement of public policy objectives.

This request covers horizontal commitments and the following service sectors:

- Professional Services
- Business services (Other than Professional services)
- Telecommunication services
- Construction and related engineering services
- Distribution services
- Environmental services
- Financial services
- Tourism and travel related services
- News agency services
- Transport services

The EC proposes that Jordan's current GATS commitments are revised in accordance with this Request. The EC is both seeking improved commitments and clarification of existing commitments as set out in this Request.

The EC is furthermore looking for a reduction in scheduled limitations whether these are horizontal or sector specific in nature. In so doing, the EC is not seeking the dismantling of public services nor the privatisation of state owned companies.

In conformity with the objectives set out in the EC's overall approach to services negotiations (document S/CSS/W/15), the EC reiterates its commitments to promote regulatory disciplines in accordance with Article VI:4 of the GATS. The EC, however, reserves its right to address at any time to Jordan specific requests concerning regulatory issues.

The EC further requests that commitments are entered in accordance with the scheduling guidelines adopted by the Council of Trade in Services on 23 March 2001 (S/L/92). In particular, for each commitment or limitation entered the EC requests:

- that the sector and sub-sector are clearly identified in accordance with the classification list in Document MTN.GNS/W/120 or other internationally recognised classification (e.g. Financial Services Annex) and corresponding CPC number. If there is no appropriate classification, the schedule should contain a sufficiently detailed definition to avoid any ambiguity as to the scope of the commitment. In that respect, the EC would like to recall the classification proposed in its negotiating proposal with regard to environmental services. While discussions on classification in these sectors are still ongoing, the EC would like to invite Jordan to present its offer in accordance with this approach.
- that any remaining limitation on market access (hereafter "MA") or on national treatment (hereafter "NT") are clearly described and only be inscribed in the market access or national treatment columns if the measure is of a nature foreseen by Articles XVI-XVII GATS.

The EC remains available to provide any clarification and answer any question on this request. Questions can be addressed to the European Commission via the EC GATS contact point (mailbox address: TRADE-GATS-CONTACT-POINTS@cec.eu.int), via the Delegation of the European Commission in Geneva, or directly to the European Commission (Directorate-General Trade, Unit D2 (Trade in services, including e-commerce), Brussels, B-1049, Belgium, fax 32-2-299 24 35).

Note : The EC reserves the right to revise and/or supplement this Request. For each service sector, W120 classification has been followed unless expressly indicated and CPCs refer to the Provisional CPC classification. The precise scope for each sector is without prejudice to the EC's final positions on classification issues and to the EC's classification of their existing commitments.
