

GATS 2000

REQUEST FROM THE EC AND ITS MEMBER STATES (HEREAFTER THE EC)

TO

PANAMA

GENERAL REMARKS

At the WTO Ministerial Conference in Doha in November 2001, Ministers agreed that initial requests for specific commitments should be submitted by 30 June 2002.

In line with this decision, and committed to the objectives and principles stated in the GATS, in particular Article IV and XIX GATS, as well as the negotiating guidelines agreed by the Council for Trade in Services on 29 March 2001, the EC encourages Panama to participate actively in the negotiations.

The EC considers that the progressive liberalisation of services is of benefit for all members, including developing and least developed countries. In this context, the EC recognises the importance of liberalisation being underpinned by domestic regulatory frameworks designed to ensure the achievement of public policy objectives.

This Request covers horizontal commitments, MFN exemptions and the following service sectors:

- Professional services
- Business services (other than professional services)
- Postal and courier services
- Telecommunications services
- Construction and related engineering services
- Distribution services
- Environmental services
- Tourism and travel related services
- News agency services
- Transport services
- Energy services

The EC proposes that Panama's current GATS commitments are revised in accordance with this Request. The EC is both seeking improved commitments and

clarification of existing commitments as set out in this Request. The EC is furthermore looking for a reduction in scheduled limitations whether these are horizontal or sector specific in nature. In so doing, the EC is not seeking the dismantling of public services nor the privatisation of state owned companies.

In conformity with the objectives set out in the EC's overall approach to services negotiations (document S/CSS/W/15), the EC reiterates its commitment to promote regulatory disciplines in accordance with Article VI:4 of the GATS. The EC, however, reserves its right to address at any time to Panama specific requests concerning regulatory issues.

The EC further requests that commitments are entered in accordance with the scheduling guidelines adopted by the Council of Trade in Services on 23 March 2001 (S/L/92). In particular, for each commitment or limitation entered the EC requests:

- that the sector and sub-sector are clearly identified in accordance with the classification list in Document MTN.GNS/W/120 or other internationally recognised classification (e.g. Financial Services Annex) and corresponding CPC number. If this is not possible, the schedule should contain a sufficiently detailed definition to avoid any ambiguity as to the scope of the commitment. In that respect, the EC would like to recall the classification or list of activities proposed in its negotiating proposal with regard to postal and courier, environmental and energy services. While discussion on classification in these sectors are still ongoing, the EC would like to invite Panama to present its offer in accordance with this approach.
- that any remaining limitation on market access (hereafter "MA") or on national treatment (hereafter "NT") are clearly described and only be inscribed in the market access or national treatment columns if the measure is of a nature foreseen by Articles XVI-XVII GATS.

The EC remains available to provide any clarification and answer any question on this Request. Questions can be addressed to the European Commission via the EC GATS contact point (mailbox address: TRADE-GATS-CONTACT-POINTS@cec.eu.int), via the Delegation of the European Commission in Geneva, or directly to the European Commission (Directorate-General Trade, Unit D2 (Trade in services, including e-commerce), Brussels, B-1049, Belgium, fax 32-2-299 24 35).

Note: The EC reserves the right to revise and/or supplement this Request. For each service sector, W120 classification has been followed unless expressly indicated and CPCs refer to the Provisional CPC classification. The precise scope for each sector is without prejudice to the EC's final positions on classification issues and to the EC's classification of their existing commitments.

EC REQUEST TO PANAMA

A. MARITIME TRANSPORT

Panama has not committed this sector. The EC requests that it be committed as follows:

EC Request: Take commitments in accordance with the attached model schedule (Annex 1). In particular for the following areas:

- 1) International transport (freight and passengers) CPC 7211 and 7212
- 2) Additional commitments for access to and use of ports facilities
- 3) Maritime auxiliary services (maritime cargo handling, storage and warehouse services, customs clearance services, container station and depot services, maritime agency services)
- 4) Multimodal activities: for inland forwarding of cargoes - commit the ability to rent or lease - or to have access to and use of multimodal facilities (as specified in the note to the schedule).
- 5) Definitions – commit definitions as specified in the model schedule.

The EC also request the following additional maritime commitments from Panama:

- 6) Equipment. To facilitate planning of their businesses operators should be allowed to reposition their own equipment, such as empty containers, between ports of Panama, when it is not carried against payment. This is requested to be committed in a new footnote:

“9. Movement of own equipment. International maritime transport suppliers can move/reposition their own equipment (i.e. empty containers, flatbeds etc.) on their own vessels between ports of Panama.”

- 7) International cargo. With the development of containerisation and high frequency networking services and with the ever-larger vessels having to limit direct port of calls for physical or economic reasons, the feeding of cargoes between main ports and way ports is becoming more important as an integral part of efficient international maritime transport. An international maritime transport supplier should be allowed to operate feeder services for its own international cargo between ports of Panama. This is requested to be committed in a new footnote:

“10. International maritime transport suppliers can operate vessels of any flag for the purposes of pre-and onward carriage of the international cargo between ports of Panama.”

In this context Panama may wish to take the one or more of the following principles into concern:

- Size of the port. Only valid for international cargo relayed between national ports handling more than [25.000 TEU] on an annual basis.
- Binding existing ad hoc practices. To the extent exceptions are already granted for use of foreign flagged vessels such practices could be bound to explicitly cover pre- and onward carriage of international cargo.
- Geographical limitations: Transport of international cargo between ports within the same province/territory [or other relevant regional entity] remains excluded.

A final request related to maritime transport is:

8) Rental and leasing of vessels with crew (CPC 7213, 7223).

NOTE TO THE SCHEDULE

Where road, rail, inland waterways (and) (related) (auxiliary) services are not otherwise fully covered in (this) (a Member's) schedule, a multimodal transport operator shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations. (« Reasonable and non-discriminatory terms and conditions » means, for the purpose of (multimodal transport operations), (this additional commitment), the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date).

DEFINITIONS

1. Without prejudice to the scope of activities which may be considered as « cabotage » under the relevant national legislation, this schedule does not include « maritime cabotage services », which are assumed to cover transportation of passengers or goods between a port located in ... (name of country or, for EEC, « a Member State ») and another port located in ... (name of the country or, for EEC, « the same Member State ») and traffic originating and terminating in ... the same port located in (name of country, or for the EEC, « a Member State ») provided that this traffic remains within ... (name of country or « this Member State »)'s territorial waters.

2. « Other forms of commercial presence for the supply of international maritime transport services » means the ability for international maritime transport service suppliers of other Members to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

(a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
