GATS 2000

REQUEST FROM THE EC AND ITS MEMBER STATES (HEREAFTER THE EC)

TO

PERU

GENERAL REMARKS

At the WTO Ministerial Conference in Doha in November 2001, ministers agreed that initial requests for specific commitments should be submitted by 30 June 2002.

In line with this decision, and committed to the objectives and principles stated in GATS, in particular Article IV and XIX GATS, as well as the negotiating guidelines agreed by the Council for Trade and Services on 29 March 2001, the EC encourages Peru to participate actively in the negotiations.

The EC considers that the progressive liberalisation of services is of benefit for all members, including developing and least developed countries. In this context, the EC recognises the importance of liberalisation being underpinned by domestic regulatory frameworks designed to ensure the achievement of public policy objectives.

This request covers horizontal commitments, MFN exemptions and the following service sectors:

- Professional services
- Business services (other than professional services)
- Telecommunication services
- Construction and related engineering services
- Distribution services
- Environmental services
- Financial services
- Tourism and travel related services
- News Agency services
- Transport services
- Energy services

The EC proposes that Peru's current GATS commitments are revised in accordance with this request. The EC is both seeking improved commitments and clarification of

existing commitments as set out in this Request. The EC is furthermore looking for a reduction in schedules limitations whether these are horizontal or sector specific in nature. In so doing, the EC is not seeking the dismantling of public services nor the privatisation of state owned companies.

In conformity with the objectives set out in the EC's overall approach to services negotiations (document S/CSS/W/15), the EC reiterates its commitments to promote regulatory disciplines in accordance with Article VI:4 of the GATS. The EC, however, reserves its right to address at any time to Peru specific requests concerning regulatory issues.

The EC further requests that commitments are entered in accordance with the scheduling guidelines adopted by the Council of Trade in Services on 23 March 2001 (S/L/92). In particular, for each commitment or limitation entered the EC requests:

- that the sector and sub-sector are clearly identified in accordance with the classification list in document MTN.GNS/W /120 or other internationally recognised classification (e.g. Financial Services Annex). If this is not possible, the schedule should contain a sufficiently detailed definition to avoid any ambiguity as to the scope of the commitment. In that respect, the EC would like to recall the classification or list of activities proposed in its negotiating proposals with regard to energy services. While discussions on classification in these sectors are still ongoing, the EC would like to invite Peru to present its offer in accordance with this approach.
- that any remaining limitation on market access (hereafter "MA") or on national treatment (hereafter "NT") are clearly described and only be inscribed in the market access or national treatment columns if the measure is of a nature foreseen by Articles XVI-XVII GATS.

The EC remains available to provide any clarification and answer any question on this request. Questions can be addressed to the European Commission via the EC GATS contact point (mailbox address: TRADE-GATS-CONTACT-POINTS@cec.eu.int), via the Delegation of the European Commission in Geneva, or directly to the European Commission (Directorate-General Trade, Unit D2 (Trade in services, including e-commerce), Brussels, B-1049, Belgium, fax 32-2-299 24 35).

Note: The EC reserves the right to revise and/or supplement this request. For each service sector, W120 classification has been followed unless expressly indicated and CPCs refer to the provisional CPC classification. The precise scope for each sector is without prejudice to the EC's final position on classification issues and to the EC's classification of their existing commitments.

HORIZONTAL COMMITMENTS

EC REQUEST TO PERU

MODES 3 AND 4

- MA – These modes remain unbound with some exceptions. **EC Request:** Bind these modes.
- MA – Exceptions on foreign investment laid down in Peru's legal order. **EC Request:** Specify any restriction non listed in the schedule.

MODE 4

In other cases, increase these percentages.

Intra-corporate transferees

An intra-corporate transferee (ICT) is an employee of a foreign firm, who is temporarily transferred to an affiliate of that firm (branch subsidiary, office, joint venture etc.) in Peru. The EC considers that under Peru's existing commitments, the quantitative restrictions indicated above do not apply, but that Peru has made no other commitments in relation to intra-corporate transferees. **EC request:**

- Make a commitment for Intra-corporate transfers of managers, executives and specialists (terms should be defined in the schedule). Specify any limitations to the minimum prior length of employment, the maximum length of stay, and the degree of affiliation which must exist between companies.

A Business Visitor does not himself directly provide services or sell to the public. Business Visitors are usually granted entry for 90 days periods at a time. Peru has made no specific commitments in relation to Business Visitors. **EC request:** Make a commitment relating to Business Visitors who are not entering to themselves supply a service, but rather to carry out one of the activities listed above. No restrictions should apply to the entry of Business Visitors and the maximum length of stay should be at least 90 days in any 12 month period.

Contractual Service Supplier

A contractual service supplier is a juridical person with no commercial presence in Peru, who has obtained a service contract in Peru requiring the presence of its employees in Peru in order to fulfil that contract. Peru does not appear to have made any commitments in relation to contractual service suppliers. **EC Request:** Take commitments for natural persons employed in the service sectors listed below and seeking temporary entry as contractual service suppliers. Such natural persons can be required to have a university degree or equivalent technical qualification – plus the appropriate professional qualifications where this is required by domestic law. The length of stay may be limited in time.

TRANSPORT SERVICES

EC REQUEST TO PERU

MFN EXEMPTIONS

- MFN exemption in land and sea transport in the case of: Andean system of carriage of freight by road; international transport of passengers by roads; freedom of access to maritime transport cargoes; multi-modal transport; freedom of access to freight originating in and shipped by sea within the subregion, including cabotage, preferential treatment is reserved for operations of the subregion. **EC Request:** Clarify under which circumstances these benefits would also apply to an European company authorised and established in Peru (see example road transport where the EC requests opening of Mode 3 for freight transportation).
- MFN exemption in land transport relating to an agreement on International Land Transport (national treatment for authorized suppliers of signatories). **EC Request:** Clarify under which circumstances these benefits would also apply to an European company authorised and established in Peru (see road transport where the EC request opening of Mode 3 for freight transportation).

A. MARITIME TRANSPORT

Peru has commitments for international maritime passengers transport, with certain restrictions (i.e. authorisation requirement for Mode 1 and 3, and Mode 2 is unbound).

EC Request: Take commitments in accordance with the attached model schedule (Annex 1). In particular for the following areas:

- 1) **International transport (freight and passengers) CPC 7211 and 7212**
- 2) **Additional commitments for access to and use of ports facilities**
- 3) **Maritime auxiliary services (maritime cargo handling, storage and warehouse services, customs clearance services, container station and depot services, maritime agency services)**
- 4) **Multimodal activities: for inland forwarding of cargoes - commit the ability to rent or lease - or to have access to and use of multimodal facilities (as specified in the note to the schedule).**

5) **Definitions** – commit definitions as specified in the model schedule.

The EC also request the following additional maritime commitments from Peru:

- 6) **Equipment**. To facilitate planning of their businesses operators should be allowed to reposition their own equipment, such as empty containers, between ports of Peru, when it is not carried against payment. This is requested to be committed in a new footnote:

“9. Movement of own equipment. International maritime transport suppliers can move/reposition their own equipment (i.e. empty containers, flatbeds etc.) on their own vessels between ports of Peru.”

- 7) **International cargo**. With the development of containerisation and high frequency networking services and with the ever-larger vessels having to limit direct port calls for physical or economic reasons, the feeding of cargoes between main ports and way ports is becoming more important as an integral part of efficient international maritime transport. An international maritime transport supplier should be allowed to operate feeder services for its own international cargo between ports of Peru. This is requested to be committed in a new footnote:

“10. International maritime transport suppliers can operate vessels of any flag for the purposes of pre- and onward carriage of the international cargo between ports of Peru.”

In this context Peru may wish to take the one or more of the following principles into concern:

- Size of the port.
- Binding existing ad hoc practices. To the extent exceptions are already granted for use of foreign flagged vessels such practices could be bound to explicitly cover pre- and onward carriage of international cargo.
- Geographical limitations: Transport of international cargo between ports within the same state [or other relevant sub-federal/regional entity] remains excluded.
